

### 2CM INSTALLATION OPTIONS:

Dry Install On:  
GRASS

Dry Install On:  
SAND OR GRAVEL

Traditional Install:  
WITH ADHESIVE

Raised Install:  
WITH PEDESTALS

Limestone series is an Italian made unglazed porcelain tile featuring soft movement and texture to create a modern stone effect. Available in multiple sizes, including a coordinating 2CM outdoor paver, the Limestone series can create multiple looks in both your interior and exterior spaces.

Why use 2CM thick porcelain tile, also known as pavers?

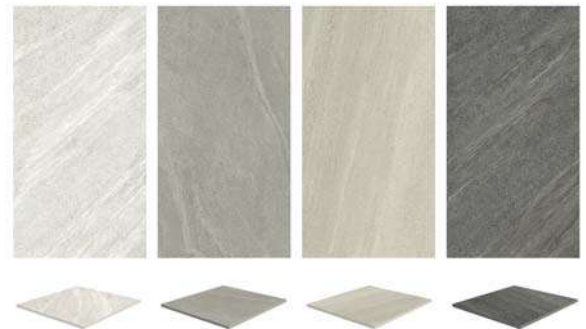

Design —  
Seamless indoor/outdoor transition

Install —  
True to size - resulting in a quick & easy install  
High DCOF - good for areas with slip concern

Maintenance —  
High abrasion & stain resistance  
No need to seal  
Durable  
Withstand extreme temperature changes (-50°C to +60°C)

### LAYING OPTIONS

**DRY LAYING ON GRASS**

Directly utilize the 2CM tile on grass so you can remove and reposition to maximize the different patterns and design formations.

**DRY LAYING ON SAND OR GRAVEL**

Aesthetically pleasing and easy to install, the 2CM tile can be installed on top of soil or gravel. A seamless look can be achieved with a minimum joint and removed to change up the design.

**TRADITIONAL WITH ADHESIVES**

Ideal for high static load areas such as garages, pools and driveways. The 2CM tile can be installed using mortar in the same manner as traditional tile.

**RAISED WITH PEDESTALS**

There are multiple ways to install a raised or floating floor with pedestals. This method is ideal for rooftop patios and decks. Allowing for effective drainage, compensates for uneven surfaces, is inspectable, and will also accommodate pipes and wires.

### USE OUR DYNAMEX™ RISE-IT PEDESTAL PAVER SYSTEM

**DYNAMEX™ RISE IT**  
Paver Pedestal System for Cement & Porcelain Pavers

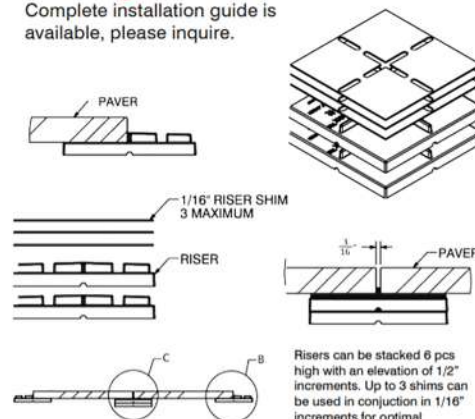

- RP-E71850 — RISER (+) 1/2" THICK PAD
- RP-E71855 — RISER (FLAT TOP) 1/2" THICK PAD
- RP-E71851 — SHIM 1/16" SHIM
